

Carolanne Van Belleghem

Biochemist - structural virologist

ABOUT ME

DATE OF BIRTH

31-12-1998

NATIONALITY

Française

DRIVER'S LICENSE B

CONTACT

PHONE NUMBER

06.50.13.58.54

ADDRESS

4 Buire Street
Lyon 69003
France

E-MAIL

carolanne.van-belleghem@ibcp.fr

SOCIAL NETWORKS

LANGUAGES

B2

POINT OF INTEREST

EDUCATION

Jan. 2024 Present — **PhD in Structural biology and biochemistry**
MMSB, Lyon, France

Sept. 2021 July. 2023 — **Master's degree in Structural Biology and Genomics**
Aix-Marseille University, campus Luminy, Marseille, France ("bien")

Sept. 2019 June. 2021 — **Bachelor's degree of Science in Biology**
Nîmes University, France ("bien")

Sept. 2016 June. 2019 — **PACES**
Montpellier University, France

Sept. 2015 June. 2016 — **Scientific High School Baccalaureate specializing in Life Sciences**
Alphonse Daudet High school, Nîmes, France

RESEARCH EXPERIENCES

Jan. 2024 present — **PhD Thesis at the Molecular Microbiology Structural Biochimistry lab (MMSB) in the Protein Solid-State NMR team**
PhD Supervisors: Anja Böckmann, Lauriane Lecoq
Interactions of the HBV capsid-forming core protein and the envelope proteins.
Skills: solution and solid-state NMR, isothermal titration calorimetry, circular dichroism, dynamic light scattering, electron paramagnetic resonance, electron microscopy, recombinant protein and nucleic acid expression and purification, etc.

Jan. 2023 June. 2023 — **Internship at the Bacterial Chemistry Laboratory (LCB) in the VN2M team**
Supervisor: Dr. Éric Durand
Microbiology and structural biology Master's degree 2 internship: Manipulation of type 2 bacterial organism, *Acinetobacter baumannii*.
Skills: biochemistry, microbiology, structural biology and bioinformatics.

April. 2022 May. 2022 — **Internship in Laboratory of Macromolecular Systems Engineering (LISM) in the VN2M team**
Supervisor: Dr. Éric Durand
structural biology Master's degree 1 internship: Manipulation of type I bacterial organism: *E. coli BL21*.
Skills: biochemistry, microbiology and bioinformatics.

Jan. 2021 Feb. 2021 — **Internship in Toulouse Center for Integrative Biology, in the ExPlaIn team**
Supervisor: Professor Giurfa Martin
Neurobiology Bachelor's degree internship: Handling of *Apis mellifera* bees.
Skills: bee conditioning and olfactory testing of the proboscis extension reflex.

Sept. 2023 Sept. 2021 — **Tutor for Bachelor students in general chemistry and physics in Nîmes University**
Pedagogical skills

PUBLICATIONS

- Yang, Delcourte, Van Belleghem *et al*. Structure and nucleic-acid interactions of the S^{D60} domain of the hepatitis delta virus small antigen, PNAS, **2025**
- Van Belleghem, Rescalli, Briday et *al*. Residue-level predictions of the protein-protein interactions of the hepatitis B virus core and envelope proteins, BioRxiv, **2026**

COMMUNICATIONS

- **AC 42 Annual Meeting - ANRS**
  Pasteur Institute, Paris, March 2024
- **Advanced Isotopic Labelling for Integrated Structural Biology - AILM2024**
  Poster presentation
  IBS, Grenoble, May 2024
- **Workshop on Structural Biophysics**
  Poster presentation & Flash Talk
  IECB, Bordeaux, October 2024
- **AC 42 Annual Meeting - ANRS**
  Poster presentation
  Pasteur Institute, Paris, March 2025
- **XXVII°Journées Francophones de Virologie**
  Poster presentation
  ENS, Lyon, April 2025
- **HBV Cure ANRS ME**
  Oral presentation
  Pasteur Institute, Paris, June 2025
- **Bio-solid NMR School**
  Poster presentation
  TU Munich, Germany, November 2025
- **AC 42 Annual Meeting - ANRS**
  Oral presentation
  Lumière Institute, Lyon, March 2026
